

WHY CHOOSE SANDHURST?

Accountability

We really strive to live by our values with accountability at the top of our list. Accountability is everything to us – if we say we will do something by a certain time – then you can count on us doing just that.

Client Focused

We want to provide what is best for the client – not what's easiest for us. We will not ask you to fill out standard templates that do not work for you. We see it as a true partnership to provide exactly the product you require.

Trust

We believe trust is the bedrock of any relationship. We provide clear and transparent estimates with no hidden extras or dubious change orders.

Experience & Depth

All our facilitators have hands on real experience rather than just academic theory. The best facilitators are those who have done it themselves. We also make every effort to stay relevant and current by continuing to deploy to real incidents whenever possible.

Innovation

We are proud to be hands-on problem solvers and are constantly looking for new and more efficient ways of doing things. Our quick adoption of virtual training and exercises as well as other response tools has made us an industry leader in these areas.

Realistic Training

Exercises and training courses are more than just ticking the regulatory box to us. They are a way to bring the plans to life and prepare future responders for any eventuality by providing the most realistic training possible.

“This was excellent. Teamwork, safety and leadership taught through hands on activities by someone who actually understands what we do for a living and it’s not just about the theory. All supervisors should do this course.”

- District Field Supervisor, Calfrac Well Services

“I am so glad we found a vendor who is flexible enough to provide response plans that actually work for the responders rather than just following a standard template.”

- Director HSE, Catapult Environmental
