

WHY CHOOSE SANDHURST?

| Accountability

We really strive to live by our values with accountability at the top of our list. Accountability is everything to us – if we say we will do something by a certain time – then you can count on us doing just that.

| Client Focused

We want to provide what is best for the client – not what's easiest for us. We will not ask you to fill out standard templates that do not work for you. We see it as a true partnership to provide exactly the product you require.

| Trust

We believe trust is the bedrock of any relationship. We provide clear and transparent estimates with no hidden extras or dubious change orders.

| Experience & Depth

All our facilitators have hands on real experience rather than just academic theory. The best facilitators are those who have done it themselves. We also make every effort to stay relevant and current by continuing to deploy to real incidents whenever possible.

| Innovation

We are proud to be hands-on problem solvers and are constantly looking for new and more efficient ways of doing things. Our quick adoption of virtual training and exercises as well as other response tools has made us an industry leader in these areas.

| Realistic Training

Exercises and training courses are more than just ticking the regulatory box to us. They are a way to bring the plans to life and prepare future responders for any eventuality by providing the most realistic training possible.

“This was excellent. Teamwork, safety and leadership taught through hands on activities by someone who actually understands what we do for a living and it's not just about the theory. All supervisors should do this course.”

- District Field Supervisor, Calfrac Well Services

“I am so glad we found a vendor who is flexible enough to provide response plans that actually work for the responders rather than just following a standard template.”

- Director HSE, Catapult Environmental

BUSINESS CONTINUITY

Sandhurst

IS YOUR COMPANY PREPARED TO RESPOND TO THREATS TO YOUR OPERATIONS? DO YOU HAVE THE PLANS, RESOURCES, AND TOOLS IN PLACE TO EFFECTIVELY RECOVER?

Sandhurst's comprehensive business continuity services incorporate both planning and training to ensure you can effectively respond to and recover from disruptive events.

PROGRAM DEVELOPMENT

Whether you have a business continuity program in place or are beginning to develop one, Sandhurst can offer expertise and a wide variety of services to strengthen the resiliency of your organization.

We offer a variety of program development services including:

- Conducting a program evaluation or audit based on relevant regulations, standards, and best practice.
- Developing Key Performance Indicators for your program.
- Conducting initial risk assessments and business impact analysis.
- Building program documentation such as standards and policies.
- Creating a training and exercise plan to build capability and capacity and validate your program.

BUSINESS CONTINUITY PLANS

Sandhurst is a leader in developing business continuity plans that are unique to the organization. We will assist you in the development of one or several aligned business continuity plans.

Sandhurst can support you in developing strategies that enable your critical functions to remain operating until your services are recovered and restored to normal levels. Once your plan is complete, we will help you review it, distribute it, and most importantly, test it to ensure it works.

“It was so refreshing to have a facilitator that is an expert in emergency response and able to talk from first-hand experience. It really brought the material to life.”

- Safety Officer, Cenovus Energy

TRAINING AND EXERCISES

Need training on your plan? Sandhurst will work with you to design a training and exercise program that meets your needs and prepares your staff to respond.

Training sessions can be used to help your organization understand that business disruptions and emergencies happen, how to use a business continuity plan, and how to respond to an emergency.

Whether you want to test one strategy, a single or multiple business units, or multiple agencies, we can design a realistic exercise that meets your requirements. Our post exercise reports are thorough and will provide you with recommendations to enable the continuous improvement of your program.
