

WHY CHOOSE SANDHURST?

Accountability

We really strive to live by our values with accountability at the top of our list. Accountability is everything to us – if we say we will do something by a certain time – then you can count on us doing just that.

Client Focused

We want to provide what is best for the client – not what's easiest for us. We will not ask you to fill out standard templates that do not work for you. We see it as a true partnership to provide exactly the product you require.

Trust

We believe trust is the bedrock of any relationship. We provide clear and transparent estimates with no hidden extras or dubious change orders.

Experience & Depth

All our facilitators have hands on real experience rather than just academic theory. The best facilitators are those who have done it themselves. We also make every effort to stay relevant and current by continuing to deploy to real incidents whenever possible.

Innovation

We are proud to be hands-on problem solvers and are constantly looking for new and more efficient ways of doing things. Our quick adoption of virtual training and exercises as well as other response tools has made us an industry leader in these areas.

Realistic Training

Exercises and training courses are more than just ticking the regulatory box to us. They are a way to bring the plans to life and prepare future responders for any eventuality by providing the most realistic training possible.

“This was excellent. Teamwork, safety and leadership taught through hands on activities by someone who actually understands what we do for a living and it's not just about the theory. All supervisors should do this course.”

- District Field Supervisor, Calfrac Well Services

“I am so glad we found a vendor who is flexible enough to provide response plans that actually work for the responders rather than just following a standard template.”

- Director HSE, Catapult Environmental

EMERGENCY MANAGEMENT

DOES YOUR ORGANIZATION HAVE THE PLANS, RESOURCES, AND TRAINING REQUIRED TO EFFECTIVELY RESPOND TO AN EMERGENCY?

Our comprehensive Emergency Management services incorporate both planning and training to ensure you can effectively respond.

PROGRAM DEVELOPMENT

Whether you have an emergency management program in place or are beginning to develop one, Sandhurst can offer expertise and a wide variety of services to strengthen the resiliency of your organization.

We offer a variety of program development services including:

- Conducting a program evaluation or audit based on relevant regulations, standards, and best practice.
- Developing Key Performance Indicators for your program.
- Building program documentation such as standards, policies, and competency frameworks.
- Creating a training plan to build capability and capacity within your organization.
- Creating an exercise plan to validate and continuously improve your program.

PLANNING

Planning is a cornerstone of emergency management. Sandhurst prides ourselves on our ability to create plans that are customized to an organization and are easily executable.

Sandhurst has experience in the development of Emergency Plans from small to complex organizations across multiple sectors, both private and public. Whether you need an emergency response plan, crisis management plan, or crisis communications plans, all our plans are created from best practice, comply with regulatory requirements, and are practical and purposeful.

A coordinated approach to emergency management planning will strengthen the capacity to prevent, protect against, respond to and recover from major disasters and other emergencies.

TRAINING & EXERCISES

Training is one of the key strengths of Sandhurst Consulting and we believe we offer the best training and exercise events in North America.

We work personally with all our clients to customize content to reflect how their organization conducts operations.

Our team comes from a variety of backgrounds and offers decades of experience and a breadth of knowledge that is unparalleled. Whatever your training requirements are, we have the instructor to meet your needs.

Whether you need an exercise to test your emergency response plan, business continuity plan, emergency social services, or public protection measures, we will work with you to design an exercise to fit your needs.
